Encore Older Adult Education Program
Accessing Moodle

1. Have ready your Section#, Student ID#, as well as your Password.
   - Your Password is the month and day of your birth. Example: March 5 is 0305.

2. To access Moodle, go to moodle.piercecollege.edu, and you will arrive at the screen below.

3. Once there, enter your Student ID# and Password (see step 1) and click on Login.

4. Go to the bottom of the page to view the classes you are enrolled in that are on Moodle. Not every class has something on Moodle; ask your instructor if they use Moodle.

5. Find the class by section#, instead of the name, and click.

6. Once there, you can view materials posted by your instructor under the appropriate week.
   - There are additional features such as chat, video, and discussions that your instructor may choose to use; if these features are present, your instructor will inform you of them.
